

SLACKRACK

+ FITNESS EDITION

THE NEXT GENERATION HAS LANDED!

The new Slackrack has many improvements. As a three part stand alone frame the Slackrack can be set either at 2m or 3m length. In connection with a weight reduction we could create a more compact packaging, lowering significantly shipping cost. Hence the new Slackrack can be shipped without bulky shipping surcharges. The new design makes the setup and handling easier. Only one type of screw is used. The fixing plates allow a cleaner and more rigid fixation. The metal surfaces are powder coated and have a higher finish. The exchangeable rubber feet provide a safe grip on the floor making it ideal for indoor use.

For the launch of this product we have added the fitness upgrade. Including the stretchband for even more exercise options, a professional workout plan as a poster and the app, this product combines family fun with professional "plug and play" fitness.

REDUCED WEIGHT BY IMPROVED DESIGN
